Makedonski Telekom AD - Skopje Kej 13-ti Noemvri No. 6, 1000 Skopje, Republika Makedonija

To: Macedonian Stock Exchange AD Skopje

Orce Nikolov 75, 1000 Skopje

Date: February 2014

Subject: Explanation on the operation of Makedonski Telekom AD - Skopje Group for

the period from 01.01.2013 until 31.12.2013

The following analysis refers to the unaudited consolidated financial statements of Makedonski Telekom AD – Skopje Group, which includes Makedonski Telekom AD - Skopje, T-Mobile Macedonia AD Skopje and the e-Makedonija – Skopje Foundation for the period 01.01.2013 - 31.12.2013, prepared in accordance with International Financial Reporting Standards (IFRSs).

#### **I Revenues**

The revenues at Group level in 2013 amounted to MKD 12,402,621 thousand, which represents a decrease of 9.0% compared to 2012.

The other operating income in 2013 significantly decreased by nearly 80% compared to the previous period. The decrease was owing to the higher other operating income in 2012 due to the sale of four administrative buildings and the purchase of a new administrative building in 2012 as part of the contract for sale and purchase of real estate with an exchange.

#### Fixed line services

Makedonski Telekom has managed to maintain the leading position on the fixed voice market with 69% (internal estimation) or 267 thousand customers at the end of 2013.

Regarding the TV market, Makedonski Telekom has the largest market share encompassing 21% (internal estimation) of the total TV market. Makedonski Telekom, with its IPTV service, entered as a challenger on the market and due to the high quality service, the interactivity and the unique TV experience, Makedonski Telekom achieved an increase of the number of IPTV customers by 32.6% compared to the end 2012, which has resulted in a customer base of 88 thousand customers at the end of 2013.

The focus on the double and triple play packages resulted in an increased number of DSL customers by 7.8%, resulting in DSL customer base of 186 thousand at the end of 2013 and broadband Internet market share of 52.5% (internal estimation).

The voice revenues in the fixed segment services decreased due to the decreased number of fixed line customers by 8.5% compared to the same period of the previous year. Outgoing traffic has been also decreased by 15.3% compared to 2012 amounting to 565,402 thousand minutes in 2013.

The revenues from Internet and digital television via Internet protocol ("IPTV") increased by 6.1% compared to the same period of the previous year.

The **revenues from sale of equipment** in 2013 have increased by 14.2% compared to 2012.

**T**...

Makedonski Telekom AD - Skopje Kej 13-ti Noemvri No. 6, 1000 Skopje, Republika Makedonija

### Mobile services

T-Mobile Macedonia has a leading market position with a market share of 47.5% (internal estimation). The subscriber base remained relatively stable amounting to 1,195 thousand subscribers at the end of 2013.

**Mobile voice revenues** in 2013 have decreased by 15.5% compared to the previous year as a result of the tariff decrease. In 2013 the trend of increased usage of mobile services has coutinued whereby more and more minutes are bundled into the packages for the same price. This has resulted in an increase in the minutes of usage (MOU) partially driven by the continuous tariff decline. Consequently, the average revenue per user (ARPU) has declined by 10.8% compared to the previous period amounting to MKD 447.

**Non-voice revenues** remained stable with a slight increase by 1.5% compared to the previous period, as a result of the combining effect of the increased demand for mobile Internet and lower number of SMSs sent.

# II Expenses

On the cost side, during 2013, the operating expenses decreased by 5.2% compared to the same period of the previous year.

The employee related expenses increased due to the voluntary leave program of the companies in 2013. The cost of goods and services sold also increased during the same period. The increase of these expenses was compensated by the decreased amortization.

The total Capital expenditures (CAPEX), including the acquisition of 4G license in 2013 in the amount of MKD 634,011 thousand, is MKD 3,151,892 thousand.

# III Net profit and earning per share (EPS)

The total net profit for the 2013 amounts MKD 1,990,378 thousand resulting in EPS of MKD 23.08. The above-stated movements on the revenues and costs side resulted in a decrease of the reported net profit for 2013 by 47.3% compared to the same period of the previous year. However, after eliminating the impacts coming from the sale and purchase of real estate with an exchange in 2012 and the expenses for the voluntary leave program in 2013, the decline of the net profit for the analysed period is 19.7%.

\*\*\*\*

On 13 February 2006, Magyar Telekom Plc., the controlling owner of the Company, (via Stonebridge Communications AD - Skopje (under liquidation), majority shareholder of the Company), announced that it was investigating certain contracts entered into by another subsidiary of Magyar Telekom Plc. to determine whether the contracts were entered into in violation of Magyar Telekom Plc. policy or applicable law or regulation. Magyar Telekom's Audit Committee retained White & Case, as its independent legal counsel to conduct the internal

**T**...

Makedonski Telekom AD - Skopje Kej 13-ti Noemvri No. 6, 1000 Skopje, Republika Makedonija

investigation. Subsequent to this on 19 February 2007, the Board of Directors of the Company, based on the recommendation of the Audit Committee of the Company and the Audit Committee of Magyar Telekom Plc., adopted a resolution to conduct an independent internal investigation regarding certain contracts in Macedonia.

Based on publicly available information, as well as information obtained from Magyar Telekom and as previously disclosed, Magyar Telekom's Audit Committee conducted an internal investigation regarding certain contracts relating to the activities of Magyar Telekom and/or its affiliates in Montenegro and Macedonia that totalled more than EUR 31 million. In particular, the internal investigation examined whether Magyar Telekom and/or its Montenegrin and Macedonian affiliates had made payments prohibited by U.S. laws or regulations, including the U.S. Foreign Corrupt Practices Act (the "FCPA"). The Company has previously disclosed the results of the internal investigation.

Magyar Telekom's Audit Committee informed the U.S. Department of Justice (the "DOJ") and the U.S. Securities and Exchange Commission (the "SEC") of the internal investigation. The DOJ and the SEC commenced investigations into the activities that were the subject of the internal investigation. On December 29, 2011, Magyar Telekom announced that it had entered into final settlements with the DOJ and the SEC to resolve the DOJ's and the SEC's investigations relating to Magyar Telekom. The settlements concluded the DOJ's and the SEC's investigations. Magyar Telekom disclosed the key terms of the settlements with the DOJ and the SEC on December 29, 2011. In particular, the Company disclosed that it had entered into a two-year deferred prosecution agreement (the "DPA") with the DOJ. The DPA expired on January 5, 2014, and, further to DOJ's request filed in accordance with the DPA, the U.S. District Court for the Eastern District of Virginia dismissed the charges against the Company on February 5, 2014.

According the information provided to the Company by Magyar Telekom Plc., on 2 December 2009, the Audit Committee of Magyar Telekom Plc., provided the Magyar Telekom's Board of Directors with a "Report of Investigation to the Audit Committee of Magyar Telekom Plc." dated 30 November 2009 (the "Final Report").

In relation to the issuance of the Final Report and the information provided to the Company by Magyar Telekom, in January 2010 the Chairman of the Company's Board of Directors requested third party legal and tax expertise for assessment of the potential accounting and tax implications arising from the transactions conducted by the Company and its subsidiary subject to the Final Report.

The external experts prepared reports (the "Reports") on their assessment and submitted the Reports to the Chairman of the Company's BoD and the Management of the Company and its subsidiary accordingly. As a result, based on the analysis of the Tax and Legal experts and information available to the Management related to the transactions subject of the Final Report, amount of MKD 248,379 thousand has been identified as potential tax impact, together with related penalty interest, as of 31 December 2009 arising from the transactions conducted by the Company and its subsidiary subject to the Final Report. In 2010 the amount related to the identified potential tax impact, together with related penalty interest, amounted to MKD 261,834 thousand out of which MKD 227,972 thousand related to the Company were paid in 2010 upon an executive decision issued by the Public Revenue Office. In 2012 the amount of MKD 36,724 thousand related to the identified potential tax impact, together with related penalty interest, in the subsidiary was paid upon an executive decision issued by the Public Revenue Office. In addition, the value of one contract of MKD 105,147 thousand capitalised within treasury shares was corrected in 2009 consolidated financial statements and was accounted for as though these payments had been expensed in 2006 rather than capitalized as part of treasury shares as originally reported. The other contracts that were identified by the Final Report and the reports of the tax and legal experts related to transactions undertaken by the Company and its subsidiary were expensed in the related periods (2001-2007).

In May 2008, the Ministry of Interior ("MOI") of the Republic of Macedonia ("RoM") submitted to the Company an official written request for information and documentation regarding certain payments for consultancy services and advance dividend, as well as certain procurements and contracts. In June 2008 the Company submitted copies

 $\mathbf{T}$ ...

Makedonski Telekom AD - Skopje Kej 13-ti Noemvri No. 6, 1000 Skopje, Republika Makedonija

from the requested documents. In the same period, T-Mobile Macedonia has also received similar requests for provision of certain documentation to the Ministry of Interior of RM and they were submitted accordingly.

In October 2008 the Investigation Judge from the Primary Court Skopje 1 – Skopje (the criminal court), has issued an official written order to the Company to handover certain original documentation. Later in October 2008, the Company officially and personally handed over the requested documentation. Additional MOI requests in written were submitted and the Company provided the requested documentation.

We understand, based on public information available as of 10 December 2008, that the MOI Organized Crime Department submitted the files to the Basic Public Prosecution Office of Organized Crime and Corruption, with a proposal to bring criminal charges against Attila Szendrei (former CEO of Makedonski Telekom AD - Skopje), Rolf Plath (former CFO of Makedonski Telekom AD - Skopje), Mihail Kefaloyannis (former member of the Board of Directors in Stonebridge and former member of the Board of Directors in Telemacedonia) and Zoltan Kisjuhász (former CEO of Stonebridge and former non-executive member of the Board of Directors of Makedonski Telekom AD - Skopje) on the account of a reasonable doubt for committed criminal act. These individuals are proposed to be charged with having "abuse of office and authorizations" in their position in Makedonski Telekom AD - Skopje by concluding consultancy contracts for which there was no intention or need for any services in return.

The Primary Court Skopje 1 in Skopje, Investigative Department for Organized Crime delivered a summon to the Company in connection with the criminal charges against the above stated persons and asked for a statement whether the Company has suffered any damages on the basis of the said consultancy contracts.

After several postponements of the court hearing related to the investigation procedure handled in the Primary Court Skopje 1 Skopje, on the hearing held on 13 April 2009, the representatives of Makedonski Telekom AD Skopje declared the position of the Company that taking into consideration the ongoing independent internal investigation conducted by White & Case, approved by the Company's BoD, it was premature to preannounce any damage which may be caused by means of the implementation of the mentioned contracts or with reference to them. An expertise was performed on 11 May 2010 and the experts from Ministry of Justice of the Republic of Macedonia – Court Expertise Office – Skopje, asked for some additional documents from Company's side in order to prepare the expertise. The experts asked additional information related to certain agreements concluded in 2005 and 2006, and related invoices. The Company has collected and submitted requested information/documentation to the Court Expertise Office on 1 November 2010.

On 14 March 2011, the Company received from the Primary Court Skopje 1 a copy of the "Finding and Opinion", dated November 2010, issued by the Bureau of Judicial Expertise to the Primary Court Skopje 1 as a result of the expertise procedure. The "Finding and Opinion" addresses and contains conclusions regarding five contracts entered into with Chaptex and Cosmotelco in 2005 and 2006 and formerly reviewed by the Audit Committee of Magyar Telekom. The "Finding and Opinion" concludes that, based on these contracts, expenditures in the amount of EUR 3.975 million were made by the Company and Stonebridge to Chaptex "without evidence for performed services"; accordingly, shareholders of the Company and Stonebridge in the proportion of their shareholding, suffered damages in the aforementioned aggregate amount as result of decreased proceeds for payment of dividend in 2005 and 2006.

Based on publically available information, we understand that the Public Prosecutor has filed an indictment in 2011 against Mr. Szendrei, Mr. Kisjuhász and Mr. Plath, but not against Mr. Kefaloyannis. The court hearing has taken place at the end of 2011, but it was postponed since the court could not provide presence of any of the defendants. The Company, as damaged party in this case, has not received official court invitation for the hearing.

Pursuant to the questions posed by the investigative judge, it could be concluded that the public prosecutor has addressed the Company as party damaged by the actions of the defendants. However, based on the content of the

**T**...

Makedonski Telekom AD - Skopje Kej 13-ti Noemvri No. 6, 1000 Skopje, Republika Makedonija

order for expertise issued by the investigative judge, and on the basis of the expert opinion, it can be concluded that now damaged parties are shareholders of the Company (Stonebridge AD Skopje, Republic of Macedonia and minority shareholders) and therefore the state budget, as the Republic of Macedonia is a shareholder in the Company. Therefore, the public prosecutor should clear out who is considered as damage party in this particular case, which is of significant importance for the position of the Company in this proceeding and its further actions. At the moment there aren't any indications that the Company could be found liable and made to pay any penalties or fines for the criminal procedure which is initiated against the individuals and accordingly the Group did not record any provision.

On 23 February 2012 the Company received a request for documentation from the Financial Police Office of the Ministry of Finance of RoM related to certain consultancy contract and underlying documentation, which were also provided to White & Case during the internal investigation. The Company responded to the request accordingly.

We have not become aware of any information as a result of a request from any regulators or other external parties, other than as described above, from which we have concluded that the financial statements may be misstated, including from the effects of a possible illegal act.
